

# **EMERGENCY ALERT NOTIFICATIONS**

We are asking that Residents of Ingleside sign up for alert notifications. The Coastal Bend Coordination and Alert Notification (CBCAN) Regional Emergency Alert Network is a mass notification system allowing users to opt-in to receive emergency notifications via phone call, text messaging, and email. This service is provided to notify residents and businesses of emergencies, major incidents, road closures, etc., in our city. The information provided will not be shared and will only be used for alert notifications. If you wish to stop receiving notifications, it can easily be done by removing your contact information from your profile.

Residents can registry at the following website:
