

On September 5, 2017 The City Council of the City of Ingleside passed Resolution # 2017-25 setting forth that homeowners whose homes are damaged and have been declared uninhabitable may reside in an RV (Recreational Vehicle) on residential property with an approved repair/remodel permit for a maximum of **6 months**. An extension may be granted by the Building Official, or their designee, in conjunction with an active permit for the property affected.

The allowed six months' time frame expired in March of 2018, therefore, all RV use in areas not specifically zoned for RV use must cease and desist, except in conjunction with an active Building Permit. Homeowners that can provide documentation supporting their need for continued use of an RV due to their residential dwelling being damaged by Hurricane Harvey and are actively pursuing FEMA or insurance claims may be granted an extension from the Building Official.

Requests for extensions must be presented to the Building Official at 2665 San Angelo, Ingleside, TX. 78362
